

MENARD COUNTY

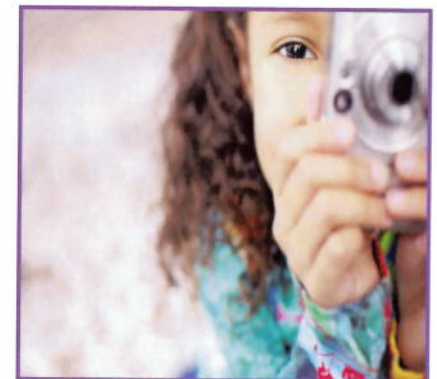

Menard County is located in west central Illinois, with a population of 12,705 (2010 U.S. Census). Menard County is home to persons identifying themselves as White (97.5%), Black (0.6%), or Hispanic/Latino (1%). According to the U.S. Census, 9.3% of residents live at or below the federal poverty level (FPL), compared to the state rate of 13.3%.

Menard County was established in the winter of 1839 by the Illinois State Legislature. The county was actually split off from Sangamon County. The bill to separate Menard from Sangamon was written and presented to the State Legislature by Representative Abraham Lincoln.

Children under the age of 5 years constitute approximately 6% of the population of Menard County. Early care and education in the county are provided by Head Start, Preschool for All (PFA), and child care settings (including licensed child care centers, licensed family child care homes, and license-exempt child care centers or homes). * Note that search results by county may show a county with funded enrollment but no sites. This is because all of the service in that county is home-based.

The Illinois Early Intervention Program (funded by IDHS) provides services in the home to children with disabilities, birth to age 3. Preschoolers with special needs (ages 3-5) may be served in PFA sites, Head Start programs, child care settings, early childhood special education classrooms, or the home.

IECAM Early Childhood Data: FY2010

Preschool for All
(3-4 year olds)

Number of sites:
1

Proposed capacity:
120

Head Start
(3-4 year olds)

Total licensed capacity:
194

Publicly Funded Preschool in Menard County

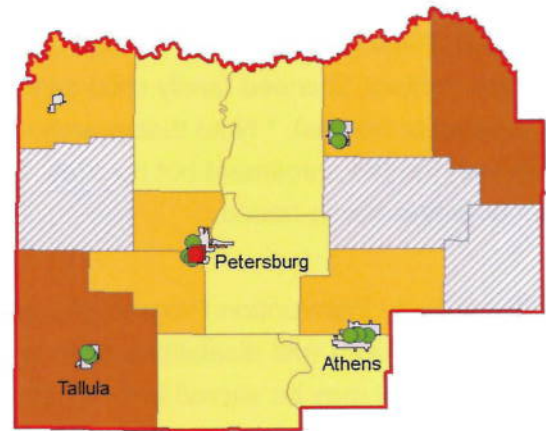

According to population estimates reported on IECAM (2008 census estimates), **38%** of 3- and 4-year-old children in Menard County are living in families at or below 185% FPL (first PFA priority level).

The map (top right) shows the distribution of **publicly funded preschool** sites in Menard County (divided into townships). The color ramp (in the legend) indicates the percentage of 3- and 4-year-old children who live in households with an income at or below 185% FPL. Note that those townships in the darker shades of brown reveal a higher percentage of poverty. The map highlights the importance of locating PFA and Head Start sites in areas of highest need.

Child Care in Menard County

The map (bottom right) shows the distribution of **child care settings** superimposed on the county (divided into townships). Note that the red squares indicate licensed child care centers and the green dots family child care homes. Although child care centers serve children who live above 185% FPL, many children from low-income families are cared for in child care settings all over the county.
